

GROUTS

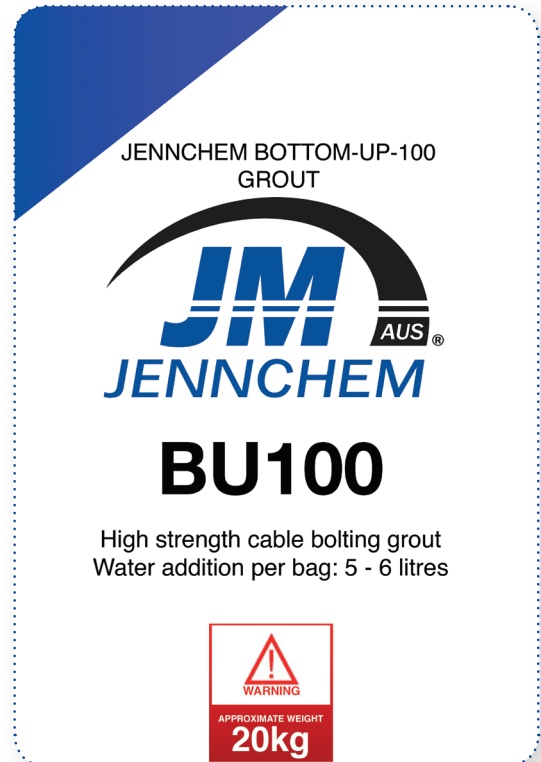

JENNCHEM BOTTOM-UP-100 GROUT

Features

- High strength 100 MPa cable bolt grout for “bottom-up” grouting
- Ready to use, mix with water and pump
- Excellent pumpability
- Non shrink, unique expansion system compensates for shrinkage
- Typically used with Bowen cables, 15.2mm triple/twin-strand cable bolts and trusses

Packaging

- Durable water proof 20kg bags for use in remote and harsh underground mining environments
- 56 bags per pallet, 1.2 tonne per pallet

Uniaxial Compressive Strength* (MPa)			
	1 day	7 days	28 days
5 litres/bag	60	100	105
6 litres/bag	55	90	100

*UCS independent test results were obtained using 50 x 50mm cubes

Water : Grout Mix	5-6 litres per bag
Estimated Yield	12 - 13 litres
