

Specialty Grouts and Cements

J-URR GROUT *(Jennchem Underground Roadway Repair)*

Jennchem J-URR GROUT is a specially formulated fast-setting concrete designed for the mining and tunnelling industries. J-URR GROUT is designed specifically for demanding applications where quick return to service is required, or where traditional concrete mixing equipment is unavailable or impractical. J-URR GROUT is formulated to absorb water and gain strength rapidly with no mixing. J-URR GROUT is ideal for rehabilitating underground roadways and filling mud holes. J-URR GROUT is a safer, more permanent solution than temporary bridges or traditional fill methods.

Features:

- Extremely Fast Setting
- Simple Application
- Quick return to service
- Safe to use
- Minimal dust make
- No mixing required
- Packaged in 1 tonne or 20kg bags
- Increases underground development production in wet conditions
- Fit for purpose QDS applicator available
